
	Date:	December 17, 2009
	Grower/Contact:	Bill Abel, President
	Company:	Flores del Sol, S.A., with Greenhouses in Jarabacoa, Dominican Republic
	Industry/Crop:	Sweet Bell Peppers
	Product:	SorbiShield 90
	Pest/Problem:	Thrips

*The following was received as a client email and used with permission.*

"We grow sweet bell peppers in a greenhouse environment and SorbiShield 90 has been terrific for our pest problems, especially thrips. We have good experience with this product and without worries of plant toxicity or excess tolerance levels.

I would recommend trying it on similar greenhouse crops for simplicity of use and excellent results. " says Bill Abel, president of Flores del Sol.

Natural Forces would like to extend our sincere appreciation and thanks to Mr. Abel who was instrumental in developing the new FIFRA 2 ee recommendation for SorbiShield 90 and providing invaluable data and feedback.

**Application Rate:** 0.2% v/v plus surfactant, applied with backpack equipment and spray to wet.
