| | Industry/Crop: | Strawberries |
| | Product: | DAZITOL |
| | Pest/Problem: | Charcoal Rot |

Charlie Young of Strawberry Passion Farms, shared his positive feedback regarding Dazitol.

"The 2 gallon per acre rate controlled charcoal rot in my radiant variety of strawberries. Charcoal rot has been more prevalent in the berries since the reduction of methyl bromide."

Application Rate:

Applied through irrigation system with double drip queen gil with 4 inch spacing.
